

JOB POSTING

Backend Software Engineer (m/f/d)

Berlin, full-time | Starting immediately

Car eWallet is driven by the vision to make self-driving cars truly autonomous by providing them with the ability to facilitate transactions on their own. To do so, Car eWallet is built on blockchain, turning it into one of the very first projects that makes use of this groundbreaking technology in a real-world setup.

On our way to change the way people will experience mobility, we are looking for a product-driven Backend Developer to join our open-minded and agile team consisting of developers, product people, business developers, designers, researchers, and project managers.

As a Backend Developer, you are a vital element of our team driving the implementation of our platform's core and use-case specific features. You bring along advanced knowledge in software development and a high readiness to learn new things and solving challenging technological problems. You are excited to get involved in team discussions, enjoy sharing knowledge and discover new technological possibilities together with the team.

JOB POSTING

Your responsibilities

- Push forward the development of the Car eWallet platform and implement use case specific extensions to onboard new service providers to our network.
- Work with our technical development team on automated build creation, deployment and monitoring using tools like Jenkins, Docker, openshift, etc.
- Create Continuous Integration and delivery pipelines for projects.
- Manage and improve software testing.
- Manage and support operational processes (Incident and Problem Management).

Your profile

- Completed studies in software engineering or applied computer science.
- Advanced knowledge of development in object oriented programming with e.g. Java, Go etc. and advanced knowledge in Spring (boot) or similar frameworks.
- As a plus, experiences in Blockchain Technologies (e.g. Hyperledger Fabric).
- Good analytical skills.
- Ability to work in a team using the agile method SCRUM.
- Solid knowledge of working with agile tools for project development (e.g. JIRA) and document management (e.g. Confluence).
- Advanced knowledge of container technologies, PaaS, Cloud Infrastructure or Microservices.
- Structured working style, initiative, organizational and team skills.
- Good command of spoken and written English and willingness to travel. Speaking German is a plus.

Your benefits

- Competitive salary
- Free choice of hardware
- Young and dynamic start-up environment
- Team events (offsite, lunches, conferences, and more)
- Company events (hiking, holiday party, and more)
- Childcare and transportation allowance
- Flexible work hours and home office policy
- A great location in the very heart of Berlin

JOB POSTING

Prerequisites

A valid work permit and residence permit in Germany are prerequisites to apply. We cannot support any Visa application process.

Please send your complete job application including your CV, motivation letter and work examples to jobs@car-ewallet.de.
