## Junior Backend Software Engineer (m/f/d)

Berlin, full-time | Starting immediately

Car eWallet is driven by the vision to make self-driving cars truly autonomous by providing them with the ability to facilitate transactions on their own. To do so, Car eWallet is built on blockchain, turning it into one of the very first projects that makes use of this groundbreaking technology in a real-world setup.

On our way to change the way people will experience mobility, we are looking for a product-driven Junior Backend Developer to join our open-minded and agile team consisting of developers, product people, business developers, designers, researchers, and project managers.

As a Junior Backend Developer, you are a vital element of our team driving the implementation of our platform's core and use-case specific features. You bring along good knowledge in software development and a high readiness to learn new things and to solve challenging technological problems. You are excited to get involved in team discussions, enjoy sharing knowledge and discover new technological possibilities together with the team.

# JOB POSTING

---

## Your responsibilities

- Actively develop further the Car eWallet platform and implement use case specific extensions to onboard new service providers to our network
- Work with our technical operations team on automated deployment and monitoring using Jenkins, Docker, etc.

## Your profile

- Completed studies in software engineering or applied computer science or comparable education. Initial experience in professional software development is a plus.
- Advanced knowledge of development with Java EE and the corresponding frameworks (Spring and Hibernate)
- As a plus, experiences in permission-based Blockchain Technologies (e.g. Hyperledger Fabric)
- Good analytical skills
- Ability to work in an agile team
- Structured working style, initiative, organizational and team skills
- Good command of spoken and written English, willingness to travel
- A great Github repository or an impressive record of contributions on Stackoverflow can compensate for shortcomings and, of course, are a good bonus.

## Your benefits

- Competitive salary, with regular compensation reviews
- Free choice of hardware
- Young and dynamic start-up environment
- Team events (offsite, lunches, conferences, and more)
- Company events (hiking, holiday party, and more)
- Childcare and transportation allowance
- Home office policy
- Flexible work hours
